Distance Education

Northwest Community College recognizes that many residents are denied the opportunity to continue their education due to family or geographic limitations. For many other people, the programs they need or would like to take have traditionally not been available in the Northwest.

Distance Education is correspondence education in the broadest sense of the word. Programs are designed for guided independent study based on the use of print and non-print learning materials. In many cases the student is assisted by a telephone tutor to whom questions can be directed.

N.W.C.C. is working co-operatively with the Knowledge Network of the West (KNOW) to bring a wide range of credit and non-credit programs to communities throughout the Northwest. These programs will be available at the College Centre and on cable channel 12.
