	Registration Information4
	Using this Calendar.....5
	NWCC Contact Information.....inside back cover

Registration

Register early to guarantee your seat, as classes fill up quickly.
Registration is guaranteed with receipt of payment.

Registration Options

- Phone:** 1.877.277.2288 or your local campus. Pay with credit card (Visa, Mastercard or American Express). See inside back cover to contact your local campus directly.
- Drop in:** Register at your local campus. Pay with a credit card, debit card, cash, or cheque. Post-dated cheques are **not** accepted.
- Fax:** See inside back cover of this calendar for local campus fax numbers.

Note: Agencies and employers may fax an authorization to invoice for student registration. The authorization to invoice must be accompanied by a Registration Form.

To access this form online, download and print, visit nwcc.ca or contact your local Workforce Training & Continuing Studies office.

See inside back cover of this calendar for local campus contact information.

Course Cancellations

A minimum number of students is required to run courses. If that number is not reached, NWCC reserves the right to cancel classes. Every attempt is made to notify you in advance. A full refund is processed automatically unless you notify us that you wish to transfer to another class.

Please ensure your contact information is correct at time of registration.

Waitlists

Registrations are accepted on a first-come first-served basis. Full payment is due at time of booking. If a course is full, your name is placed on a waitlist. If the waitlist warrants, another course may be added. Those on the waitlist will be contacted and registration will be confirmed upon receipt of full payment. If space becomes available in a course the person whose name is first on the waitlist will be contacted. If that person cannot be reached, the next person on the list will be contacted.

Fees, Withdrawals and Refunds

Refunds are made only if a course is cancelled by NWCC or if a student withdraws from a course for medical or bereavement reasons before the start of the course. Withdrawals and requests for refunds are administered as follows:

- 7 days or more before start = full refund less a \$10 admin fee
- from 6 to 3 days before start = 50% refund
- less than 3 days before start = no refund

Transfers to future classes are treated as withdrawals and are subject to the above.

Any exceptions to the refund policy are noted in course descriptions.

Confirmations

Students are contacted only if classes are cancelled. Check your registration statement carefully for course dates and times, and refer to this calendar for more info on fees, withdrawals and our refund policy.

If you have registered by phone, ask the registration staff to mail or email your registration.

Using this Calendar...

Please take time to browse this calendar and find courses that suit your individual and business needs.

And don't forget ed2go.com/nwcc

There are thousands of web-based courses including professional development for teachers and certificate programs such as graphic design are available online.

If you don't find the course you want at the campus you want, or the course dates do not fit your schedule, give NWCC a call. With sufficient demand, we can schedule a course that fits your situation.

Note: The information in this calendar is subject to change. Course dates, times and locations may vary and new courses are added throughout the year. For the most up-to-date information, go to nwcc.ca

Registering for Ed2Go Online

Getting Started with Online Courses:

- 1) Go to ed2go.com/nwcc
- 2) Browse catalogue and choose a course.
- 3) Follow the instructions to enroll in your course. During the online orientation, you will learn important information about your course. You will also choose the name and password you will use to access your course.
- 4) You will be prompted to contact NWCC to make payment.
- 5) When your course starts, return to ed2go.com/nwcc and click the 'Classroom' link. To begin your studies, simply log in with the name and password you selected when enrolling.

To learn more about all of the online courses NWCC's Workforce Training & Continuing Studies department offers, please go to ed2go.com/nwcc

Career & Professional Development

Accounting Cycle

Designed for the beginner, this course maps out the accounting cycle: balance sheets, income statements, ledger transactions, trial balances, and closing entries. Ideal for small or new businesses, the course book explains single-entry and double-entry accounting and cash/accrual.

CEBSNS 834 **6 hrs** **\$119.25**

TER Oct 8-9 (We-Th) 6:30-9:30pm

RUP Jan 17 (2015) (Sa) 9-4pm

RUP Mar 7 (2015) (Sa) 9-4pm

TER Mar 23-24 (2015) (Mo-Tu) 6:30-9:30pm

Attitude

Define attitude, to show its importance and effect on personality and work performance, and how to keep it positive. Explore techniques for retaining and recapturing a positive attitude. See the effect of a positive attitude on the work environment, especially its effect on workforce diversity, career success, and teamwork.

CEBSNS 869 **6 hrs** **\$119.25**

SMI Oct 22 (We) 9-4pm

NEW! Budgets and Financial Reporting

The goal of this workshop is to give the participant a basic understanding of budgets and financial reports so they can hold relevant discussions and render decisions based on financial data. This course will define key terms like ROI, EBIT, GAAP, and extrapolation. Furthermore, this one-day course will discuss commonly used financial terms, financial statements, budgets, forecasting, purchasing decisions, and laws that regulate the handling of financial information.

CEBSNS 906 **7 hrs** **\$145.00**

TER Mar 7 (2015) (Sa) 8:30-4:30pm

Calming Upset Customers

This course will demonstrate communication techniques that build customer loyalty. You will learn how listening, non-verbal communication, feedback, and management all help to deal with an unhappy customer, and turn the situation into a positive one.

CEBSNS 821 **6 hrs** **\$119.25**

RUP Dec 5 (Fr) 9-4pm

Face-to-Face Communication

Even as technology has allowed us to connect with an ever-expanding global network through the click of a mouse, face-to-face communication is still as important as ever. Many workplace situations, often those involving conflict, feelings, or other sensitive issues, demand human contact. This course reinforces why personal interaction remains the most powerful form of human contact and gives students the skills they need to be excellent communicators.

CEBSNS 822 **6 hrs** **\$119.25**

SMI Mar 13 (2015) (Fr) 9-4pm

NEW! Generation Gap Workshop

Managers in today's workplace are challenged with the different needs, values and experience between multiple generations (Baby boomers, Generation X and Y). As older workers delay retiring and younger workers are entering the workforce, the work environment has become a patchwork of varying perspectives and experiences. Both the young and older worker have many ideas to offer, which can help the organization thrive in the marketplace. Learning how to deal with the generation gap at work will help you become a better manager or co-worker.

CEBSNS 903 **6 hrs** **\$119.25**

TER Oct 17 (Fr) 9-4pm

NEW! Introduction to QuickBooks 2013

Learn how to quickly and efficiently gain control over the financial aspects of your small business with this powerful accounting software program.

In 12 lessons, you will master the tools you will need to set up a chart of accounts; reconcile your checking account; create and print invoices, receipts, and statements; track your payables, inventory, and receivables; create estimates; and generate reports.

CEBSNS 843 **24 hrs** **\$119**

www.ed2go.com/nwcc

Management Skills for Supervisors — P-1 Interpersonal Skills

Learn how to give and receive feedback that will help resolve difficult situations and create a supportive climate for one-on-one problem solving with fellow employees, colleagues or superiors. This course focuses on respecting individual differences, identifying and preventing win/lose situations, listening with sensitivity, communicating clearly, influencing and persuading others, and moving from conflict resolution to cooperation.

CEBSNS 788 **28 hrs** **\$656.25**

TER Nov 28-Dec 5 (Th/Fr) 8:30-4:30pm

Management Skills for Supervisors — P-2 Group Decision Making

Participants will identify and better understand their style of decision-making and the effect it has on others. Key leadership styles will be discussed to consider which is best for a specific situation, individual, or work group. Topics include how to apply motivation to build strong teams; facilitating meetings and problem-solving sessions; understanding and managing change; and addressing problem behaviors.

CEBSNS 789 **28 hrs** **\$656.25**

TER Jan 8-16 (2015) (Th/Fr) 8:30-4:30pm

Management Skills for Supervisors — P-3 Admin Skills & Personal Development

Learn how to find, hire, retain and evaluate staff on a long-term basis. Understand employee performance management methods including selecting and orienting staff, defining responsibilities and goals, conducting performance reviews, training, delegating, coaching, and addressing performance issues. This course also provides self-development skills including how to manage yourself under pressure, improve your time and stress management, enhance your writing, and sharpen your presentation skills.

CEBSNS 798 **28 hrs** **\$656.25**

TER Feb 12-20 (2015) (Th/Fr) 8:30-4:30pm

NEW! Sales Fundamentals

This workshop will give participants a basic sales process, plus some basic sales tools, that they can use to seal the deal, no matter what the size of the sale. After completing this course you will know how to turn prospects into buyers, how to provide proper customer service, how to develop a sales plan, and more.

CEBSNS 902 **6 hrs** **\$119.25**

TER Nov 22 (Sa) 9-4pm

TER Apr 24 (2015) (Fr) 9-4pm

SAGE 50 Level 1

This is an introduction to accomplishing basic accounting tasks using Sage 50 (formerly known as Simply Accounting). Participants begin with a company file and enter transactions for general ledger, accounts receivables, accounts payable, inventory, and managing capital expenses.

Prerequisite: Accounting Cycle.

Note: Expect some homework.

CECOMP 711 **18 hrs** **\$289.50**

TER Oct 14-30 (Tu/Th) 6:30-9:30pm

TER Apr 7-23 (2015) (Tu/Th) 6:30-9:30pm

RUP Apr 14-30 (2015) (Tu/Th) 6:30-9:30pm

SAGE 50 Level 2

Participants are introduced to the advanced functions and capabilities of Sage 50 (formerly known as Simply Accounting). Topics include: setting up bank reconciliations; working with credit/debit card transactions; creating a budget; handling project/department accounting; managing inventory; additional payroll features including employee benefits, generating a payroll run, releasing vacation pay, and generating T4 slips; working with foreign currencies; handling bad debts and PST/HST remittances; and more.

Prerequisite: Sage 50 or Simply Accounting Level 1.

CECOMP 712 **18 hrs** **\$289.50**

TER Nov 18-Dec 4 (Tu/Th) 6:30-9:30pm

TER May 5-21 (2015) (Tu/Th) 6:30-9:30pm

RUP May 13-29 (2015) (We/Fr) 6:30-9:30pm

Skills for Frontline People

This course will support participants in developing skills that are critical to their roles as front-line supervisors. They will develop their leadership and management styles so that they can assist others in improving their own performance. They will enhance their communication skills to become more effective. The participants will also explore the challenges of their role, the perceptions and expectations, and will develop strategies to assist them in their daily activities. The importance of self-care, including stress management, will also be discussed.

CEBSNS 800 **6 hrs** **\$119.25**

TER Dec 11 (Th) 9-4pm

Time Management

Get a grip on your priorities and identify your personal time traps. This workshop will help you to make every minute count by applying proven, practical planning aids and time management skills.

CEBSNS 841 **6 hrs** **\$119.25**

RUP Dec 4 (Th) 9-4pm

Computer Skills

NEW! Android Programming Module 1

Android Programming consists of four modules. The first module is an introduction to programming for Android devices and also covers some practical professional skills for developers. Upon completion of this course, the successful student will be able to write a sophisticated Android app and they will have a good understanding of what is required of a professional software engineer. Additionally, their skill should transfer to other disciplines with relative ease, allowing them to quickly transition to develop for a variety of platforms not explicitly covered in the course.

Note: It is recommended that students have Math 10 and an inexpensive Android 4.0+ platform (phone or tablet).

CECOMP 868 24 hrs \$375
TER Oct 20-Nov 12 (Mo/We) 6:30-9:30pm

NEW! Android Programming Module 2

Android Programming consists of four modules. Module 2 consists of:

1. Programming revisited
2. Simple data types, flow control, advanced data types, objects and classes
3. Android API
4. A more advanced Android app

In Module 2, the students are given a stronger base upon which to build and should finish the module with a good understanding of procedural and object-oriented programming, data types and flow control.

CECOMP 869 24 hrs \$375
TER Nov 24-Dec 17 (Mo/We) 6:30-9:30pm

NEW! Android Programming Module 3

Android Programming consists of four modules. Module 3 consists of:

1. Android to Database
2. Web-based apps
3. Using the Android sensors
4. Intermediate Android graphics
5. An Android app for the market

Module 3 covers some more practical aspects of developing for the Android platform and some common concepts which are useful for a wide variety of platforms. This will allow students to create apps which more fully take advantage of the Android platform.

CECOMP 870 24 hrs \$375
TER Jan 5-28 (2015) (Mo/We) 6:30-9:30pm

NEW! Android Programming Module 4

Android Programming consists of four modules. Module 4 consists of:

1. Keeping it tidy and following rules
2. Development methodologies
3. Commit early, commit often and fork at every opportunity
4. Review code, critique constructively and sharing code
5. Software engineering
6. Licences, culture and adapting to it all

Module 4 finishes the course with a focus on turning a programmer into a true professional by covering some of the concepts common to most software development companies. These skills will enable a successful student to join a team of developers and quickly be productive.

CECOMP 871 24 hrs \$375
TER Feb 23-Mar 18 (2015) (Mo/We) 6:30-9:30pm

Computer Skills for the Workplace

Most jobs today require basic computer skills. Employers seek and reward employees who can send messages via email; use a spreadsheet to create a graph and paste it into a report; add and edit content in a database; understand the implications of file sizes, memory limitations, and networks; and recognize the function and features of modern computers. This course will equip participants with these important workplace skills.

CECOMP 841 24 hrs \$119
www.ed2go.com/nwcc

Computerized Sound Editing

Students will learn how to attach audio equipment to the computer, record and edit sound files, and how to produce audio CDs. The main computer program used will be the freely available 'Audacity.'

Prerequisites: Previous computer experience in word processing and file management.

Note: Each student must bring a set of headphones.

CECOMP 839 12 hrs \$186
SMI Mar 10-19 (2015) (Tu/Th) 6-9pm

Creating Web Pages

This six week, hands-on workshop will teach you how to create and post your own website on the internet using HTML. You will learn the capabilities of the world wide web and the fundamentals of web design. You will plan the content, structure and layout of your own website including how to create pages of neatly formatted text with color, backgrounds, graphics, and tables. You will build links between pages and to the internet – and also learn how to secure the best possible position in search engines and implement effective, low-cost web marketing strategies.

CECOMP 851 24 hrs \$119
www.ed2go.com/nwcc

Creating WordPress Websites

Want to build an attractive, sophisticated blog or website—without having to learn any special coding? WordPress is the answer you're looking for! WordPress is one of the world's most popular Web design tools because it's free, it's easy to use, and it produces professional results.

CECOMP 851 24 hrs \$119
www.ed2go.com/nwcc

Excel (2010) Level 1

Microsoft Excel is a versatile tool that makes it easy to analyze, report and share data. Participants learn how to create and use worksheets and charts; enter, edit and format information; build sample worksheets; view different parts of a worksheet simultaneously; view several worksheets at once and more.

CECOMP 722 12 hrs \$217.50
SMI Oct 21-30 (Tu/Th) 6:30-9:30pm
RUP Jan 20-29 (2015) (Tu/Th) 6:30-9:30pm

Excel (2010) Level 2

Learners in this course are introduced to the intermediate features of Microsoft Office Excel 2010. Participants learn how to create and name ranges of cells; sort a list of data; create a webpage from an Excel worksheet; change cell sizes and alignment; summarize information in the database; change options; protect your worksheets and workbooks; customize your printing options; use drawing tools, and more.

Prerequisite: Excel Level 1 or equivalent experience.

CECOMP 723 12 hrs \$217.50
RUP Feb 10-19 (2015) (Tu/Th) 6:30-9:30pm
SMI Feb 10-19 (2015) (Tu/Th) 6:30-9:30pm
RUP Feb 23-Mar 4 (2015) (Mo/We) 6:30-9:30pm

Excel (2010) Level 3

Excel Level 3 is for proficient users of Microsoft Office Excel 2010. Course topics include: how to link workbooks, consolidate information from different worksheets, create a database, create and use pivot tables; use the goal seek and solve functions to calculate optimal values; create and run macros; add comments to worksheet cells; create worksheet forms with controls; import and export, and more.

Prerequisite: Excel Level 2 or equivalent experience.

CECOMP 725 12 hrs \$217.50
RUP Mar 9-18 (2015) (Mo/We) 6:30-9:30pm

NEW! Keyboarding

If you want to learn touch-typing or improve your existing typing skills, this is the perfect course for you! In these lessons, you will use the Keyboarding Pro 5 program, a typing tutorial designed for personal computers, to learn how to touch-type—that is, to type text you read from a printed page or a computer screen without looking at your keyboard.

CECOMP 806 24 hrs \$206.50
www.ed2go.com/nwcc

Internet/Email

Learn the essentials of the Internet including search tools available to help find information. This course also addresses email basics such as mailboxes, address books and attachments, plus how to organize and store email messages.

CECOMP 728 6 hrs \$109.25
SMI Sep 23-25 (Tu/Th) 6-9pm

NEW! Linux for Beginners

Have an old computer that's too good to throw away? Give it new life with Linux. Linux is a freely distributed operating system with software that has the potential to rival the great software monopoly. Students will learn to download, install, use, and maintain their own Linux systems on a variety of computers.

CECOMP 873 12 hrs \$285
SMI Oct 7-16 (Tu/Th) 6-9pm
TER Feb 24-Mar 5 (2015) (Tu/Th) 6-9pm

Microsoft Project (2013)

Discover how to effectively plan, implement, and control projects using Microsoft Project 2013, the world's most popular project management software. In these lessons, you'll learn how to use Microsoft Project to think through and organize your project's details, plan a schedule, sequence tasks, produce a baseline, assign resources and costs, track your progress, identify and analyze variances, and revise your project plan. By the end of the course, you will be able to produce a project plan that wows your audience and helps you to achieve your business goals.

CECOMP 865 **18 hrs** **\$551.25**
 TER Mar 24-26 (2015) (Mo/Tu/We) 9-4pm

NEW! Processing Digital Photos with GIMP

Using the freeware program "GIMP" students will learn how to process digital images. Students will learn to crop, resize, colour balance, and save photographs in different formats. Using layers, students will also copy parts of one image to another image, and add text and other graphics.

Prerequisite: Previous computer experience in word processing and file management.

CECOMP 838 **12 hrs** **\$217.50**
 SMI Jan 20-29 (2015) (Tu/Th) 6:30-9:30pm

Mobile Computer Skills Training

NWCC has a fully-equipped mobile training lab to accommodate off-campus computer skills training.

The mobile computer training unit offers a variety of courses including Microsoft Office (Word, Excel, PowerPoint, Outlook, Access), and Welcome to the World of Computers.

If your community, organization or village would benefit from mobile computer skills training, please contact:

Sue-Ann Norton
 snorton@nwcc.bc.ca

Could YOU use \$1000 in training?

Running your own business is hard - the Micro Business Training Program would like to help you make it easier.

You are likely eligible if:

- ▶ You are a business owner
- ▶ Your company has less than five employees
- ▶ You have no post-secondary credits
- ▶ You have no recognized certifications
- ▶ You are 19 years of age or older

Online Learning Anytime, Anywhere...Just a click away!

**Online Career Training Programs****Northwest Community College**

Prepare for employment in some of today's hottest careers with a comprehensive, affordable, and self-paced online Career Training Program. You can begin these Programs at any time and learn at your own pace. Upon successful completion of all required coursework, you will receive a Certificate of Completion.

Programs are available in the following areas:

- **Business and Professional**
- **Healthcare and Fitness**
- **IT and Software Development**
- **Management and Corporate**
- **Media and Design**
- **Hospitality and Gaming**
- **Skilled Trades and Industrial**

Features:

- Facilitators and mentors are available to answer questions and help you through your studies
- Career Counselors will help you prepare for the transition from the classroom to the workplace
- Courses are all open-enrollment and self paced
- No additional charges - all materials, workbooks, and software are included in the course fee
- Payment plans available

Pharmacy Technician

This nationally recognized Pharmacy Technician online course and training program teaches the skills needed to gain employment as a Pharmacy Tech in either the hospital or retail setting.

Medical Coding and Billing

Upon successful completion of the Medical Billing and Coding course, students will be prepared for an entry-level position doing medical billing or coding in a medical office setting.

Administrative Medical Specialist with Medical Billing and Coding

Learn about medical office operations, with an emphasis on billing and coding, processing insurance forms, and using medical software. This program provides training on medical billing software as well as preparation for the Certified Coding Associate (CCA) national certification exam.

Medical Transcription

This nationally recognized medical transcription online course and training program prepares you to start a new career as a medical transcriptionist.

Six Sigma Black Belt

Course material provides an in-depth look at the Six Sigma Black Belt DMAIC problem-solving methodology, as well as deployment and project development approaches.

Project Management

This program will provide you with a solid introduction to the understanding of project management and help you comply with the minimum 35 hours of training as required by the Project Management Institute (PMI) before you take the Project Management Professional (PM) exam.

AutoCAD 2009

Learn the skills needed to create and edit simple drawings and gradually introduce more advanced AutoCAD skills.

Freight Broker/Agent Training

Learn the skills to be a successful Freight - Load Broker Agent. Tutorials and projects will teach you the practical application of Freight Broker skills.

Veterinary Assistant

Prepare for an exciting new career as an administrative veterinary assistant. Students in the program learn about the care of animals as well as how to recognize signs of illness and disease. This online program also covers interpersonal communication, interaction with clients and their animals, as well as how to assist the veterinarian during examinations. And much more!

Paralegal

This program will prepare you to be successful in the fast growing paralegal career field. The paralegal training program includes free access to the official NALA Campus certification exam prep and Westlaw.

Visit our site to learn more!

Occupational First Aid (OFA) Level 3

NWCC's experienced instructors teach first aid theory and the practical skills needed to be able to effectively manage workplace medical emergencies and in those areas where an OFA 3 certified person is required. The course provides 77 hours of instruction but also included in our offering is additional practical exercises to the class the weekend before the exams. Hands-on exercises on the use of AEDs (automated external defibrillators) are also practiced. In addition to the textbooks, manuals and exam, refreshments and energy snacks will also be included.

OFA 3 certification requires examinations (written, practical and oral) conducted by a certified examiner at the end of instruction. A score at or above 70% is required in order to be successful. This certification is valid for three years from the date of the exam.

Prerequisite: A self-declaring medical form must be filled out. Participants must be 19 years of age for full certification. Restrictions apply for those students between 16 - 18 years of age.

Note: If certification has been expired for more than two years, the candidate must re-do the full OFA 3 course.

Gatlin Education Online Career Training Programs

NEW! Certified Residential Interior Design

The online Residential Interior Design Education (RIDE) program is available to both aspiring designing individuals and interior designers who are wanting to increase their education, career opportunities, and professional status in the interior design industry. The RIDE certification trains new designers and increases the credentials for designers in current practice.

This program will not only give you the basic skills and background you need to start working as an interior home designer, but the RIDE credential will also increase your status with potential clients. You will explore the cornerstones of professional design, discover how to plan both visually appealing and functional spaces, and study how interior design has evolved throughout history.

Upon completion of this program, you will take the Residential Interior Designer Exam (RIDE) as the final. After you receive your RIDE certification, you can qualify for benefits such as a free one-year Designer Society of America, or DSA designer membership and possible participation in a 40-hour internship through DSA, if you meet certain eligibility requirements.

120 hrs **\$2,295**

▶ Labour Market Programming

In response to recent labour market projections for the Northwest Region of BC, NWCC's Workforce Training & Continuing Studies Department has developed numerous programs for entry level office and trades related occupations. Programs listed below may be offered as regular fee paying courses for students or on a contract basis with communities, organizations or industry.

Contact your local WTCS program officer to learn more about offers and opportunities.

Essential Office Skills with Purchasing Specialization

This program will provide students with the essential skills to entry-level office careers. Over this 10 week program students will learn essential skills in customer service, communication, business writing, organizational skills, office environment, accounting and computer skills. They will also gain essential training as a purchaser including procurement, negotiation skills, contract preparation, and management and networking. This program will finish with job and career skills.

Cook's Helper Program

If you are interested in working in the culinary and food industry, Northwest Community College has just the program for you. Cook's Helper is a 13 week program which will provide students with the skills and knowledge required to fill entry level culinary and food service positions. In addition to a Cook's Helper college participation certificate, successful applicants will receive certification for FoodSafe Level 1, WorldHost, WHMIS, Cashier Training and Occupational First Aid Level 1 or Emergency First Aid.

Worker Certification

New projects underway (and planned) in the Northwest will require trained and properly certified employees.

Contact Workforce Training & Continuing Studies today to talk about certifications to help you in your job search.

See inside back cover of this calendar for local NWCC campus contact information.

Note: The information in this calendar is subject to change. Course dates, times and locations may vary and new courses are added throughout the year.

Construction Trades Helper and Labourer Program

This is a hands on, practical 11 week long program that incorporates 5 weeks of Construction Modules, 14 safety certificates along with employability, resume writing and interview skills training. Students will work together utilizing acquired skills on a community project.

Introduction to Trades

This 300 hour course is designed so that students will gain basic technical knowledge and hands on experience in a number of Industrial Trades. Upon completion of this program, students will be able to evaluate their suitability for working in the trades and determine a trade they may wish to pursue. The Program is approximately 20% theory and 80% practical. Instruction includes classroom lectures, shop work, industry speakers and site tours.

Comprehensive Class 1 Driver Training

This course is 98 hours long. This covers a 22 hour airbrakes endorsement and 20 hours of regular maintenance, safety procedures and pre-trip inspection on truck and tractor. Students also get 56 hours of driving time.

Prerequisite: Students must come with a Class 1 learner's licence and clean drivers abstract

COMING SOON! Driller/Blaster

Through classroom theory and practical applications students will learn the entry-level skills to perform the duties of a driller and a blaster. Drillers operate mobile drilling machines to bore blast holes in open-pit mines and quarries and to bore holes for blasting and for building foundations at construction sites. Blasters fill blast holes with explosives and detonate explosives to dislodge ore and rock or to demolish structures.

Students will learn:

- geology
- theory of explosives
- transportation, storage, handling and destruction of explosives
- initiating systems
- controlling and securing the blast area
- blast pattern design
- blasthold loading
- legal framework
- drilling.

BEING DEVELOPED!

Class 7/5 Driver Training

This program is intended for those drivers who have their "N" novice Class 7 license. This program will include the following topics: risk avoidance, driver psychology, social responsibilities, legal responsibilities, safe driving, vehicle performance, and motor skills.

Students will receive 16 hours of in-class instruction and will use an NWCC driver training vehicle for a minimum of 12 hours of one-on-one driver instruction training. Students may be able to have hands on training in Vehicle Maintenance as part of this program.

Labour Market Outlook & Projections

Northwest Community College is responding to the current and future labour market projections for our region and has created and adapted training programs to meet identified gaps in the labour market.

With more than \$30 billion proposed investment in Northwestern BC, the economy is poised to experience unprecedented growth. The predicted need for workers is driven by several major projects. They include mineral exploration activity, new mine development and expansion, the Northwest Transmission Line, proposed LNG pipeline and terminal facilities, modernization of the Rio Tinto Alcan smelter, expansion of the Prince Rupert Port, and overall expansion of Canada's Asia Pacific Gateway.

Construction Trades Helpers and Labourers, Purchasing Agents, Cooks, Drillers and Blasters, and Truck Drivers are identified as in-demand occupations for the proposed LNG projects and all major projects in the region. These are all occupations that have the opportunity for mobility across industries, as well as the foundation for career and educational advancement.

KL Apr 18-19 (2015)	(Sa/Su) 9-4pm	

Small Vessel Operator Proficiency (SVOP)

This course provides basic theoretical knowledge to people with specified practical skills and experience in commercial power driven vessels. On completion of the course, students will have the skill and knowledge to take charge of a vessel under 15 gross tons operating in designated waters. The SVOP Certificate is valid for the operators of a small non-passenger commercial vessel. This may be a fish farm utility boat, a small trading vessel or patrol vessel under eight metres LOA and five gross tons operating in Home Trade 4 and minor waters limits.

Prerequisites: All students must obtain and present a Transport Canada CDN (Candidate Document Number) prior to the course. See 'Important Info for Boaters' on page 21 for more information.

Terrace Power and Sail Squadron – Boating Essentials

Boating Basics gets you out there. Boating Essentials brings you back. This course will take you to the next level in your boating education. Technology has changed the way we navigate. However, to use tools like GPS and chart plotters effectively, you should understand the use of paper charts and coastal navigation. Topics covered – magnetic compass, global positioning and charts, conning, plotting, digital charting, anchoring, lines and ropes - will increase your boating knowledge and make your adventures on the water safe and enjoyable.

Important Info for Boaters

Participants in Transport Canada marine training courses must obtain a **Candidate Document Number** (CDN) prior to registration. Failure to do so will result in delays for receiving certification upon successful course completion.

A CDN may be acquired in person from any Transport Canada Marine Safety (TCMS) office. Candidates who do not have access to such services locally should follow these procedures to obtain a CDN via mail and the internet:

- Fill out the TCMS application form at http://www.tc.gc.ca/wwwdocs/Forms/82-0701_1005-03_BO.pdf
- Note that the form requires candidates to provide two certified-true copies of any of these ID documents:
 - ☐ Canadian birth certificate
 - ☐ Canadian baptismal certificate
 - ☐ Certificate of Canadian citizenship
 - ☐ Canadian passport
 - ☐ Permanent resident card
 - ☐ Seafarer's Identity document
 - ☐ Certificate of Indian status
- In person, have a commissioner for taking oaths and affidavits notarize or sign ID documents as certified true copies.
- Send the package to
Transport Canada Marine Safety
 400 – 309 2nd Ave. West
 Prince Rupert, BC V8J 3T1

Oil & Gas Industry

Confined Space Hazard Awareness

Accidents in confined spaces may be rare but they can result in severe injury or death. The majority of deaths in confined spaces are caused by hazardous atmospheres such as toxic gases or lack of oxygen. The remaining deaths are the result of physical hazards where a worker may be crushed, buried or struck by falling objects. This course will be of interest to employers, owners, managers, supervisors and joint committees in workplaces where there are confined spaces. However, employees ultimately have to be aware of the conditions that they are working in as well.

ENFORM Level 1 Chainsaw

This course covers instruction in personal and work site safety, hazard assessment and control, chainsaw inspection and maintenance, chainsaw handling and operations, and safe limbing and bucking practices. Upon successful completion of this course participants will receive a Chainsaw Competency Record Logbook and a wallet certificate from ENFORM valid for three years.

Note: Suggested minimum age is 16 years. Certification valid for three years. Students are required to have the following gear for the second and third day: saw pants, CSA steel-toed work boots, hard hat with visor and earmuffs, gloves, reflective vest, safety glasses, emergency whistle, and chainsaw with work tools. The instructor can loan gear to students who do not have it for the training. However, all students must have CSA steel-toed boots.

Did You Know?

Successful completion of a hunter safety-training course is the primary requirement to obtain a BC hunter number.

The Conservation and Outdoor Recreation Education (CORE) course requires about 21 hours of self-study and firearm handling practice based upon the CORE manual. The goal of the CORE program is to ensure that prospective hunters meet acceptable standards of knowledge and skill for safe and ethical participation in hunting recreation.

BC residents 10 years of age or older who wish to obtain a BC resident hunter number card, and a first BC resident hunting license, are eligible to participate in the CORE program.

Participants who successfully complete the CORE program, obtain a BC Resident Hunter Number Card and purchase a hunting license, qualify to go hunting in BC in accordance with the rules in the Wildlife Act and Regulations.

The BC Wildlife Federation (BCWF) operates the CORE program on behalf of the Ministry of Environment.

Individuals who have completed a hunter education program in another state or province in North America are exempt from CORE. Contact the Government Agent at BC Access Centres for more details on program exemption.

For more information and to obtain the CORE manual, visit the BCWF's CORE program website at www.bcwf.net

▶ Teaching

Instructional Skills Workshop

The Instructional Skills Workshop is a four day workshop conducted by faculty for faculty or potential faculty members and trainers. Participants will prepare and present three mini-lessons and receive feedback from their peers so that they may improve their teaching skills. Participants will also learn how to complete a lesson plan and give constructive feedback.

This course is equivalent to PIDP 3220 from the Provincial Instructor Diploma program at Vancouver Community College. By the end of this workshop the participants will be able to write and prepare a useful, practical lesson plan, use learning objectives to inform learners of their expectations, use common instructional aids, evaluate whether outcomes match objectives and much more.

Introduction to Teaching ESL/EFL

Would you like to increase your effectiveness as an English language teacher and go beyond the well-known methods that often leave teachers frustrated with their one-size-fits-all approach? This course will take you on a fascinating exploration of what it means to be a teacher, how to understand who your students are and the needs they have, and how to choose the most appropriate materials and activities for your classroom. You will learn how you can select and fine-tune the principles that exactly fit your teaching situation.

CEEDUC 723 **\$119**
www.ed2go.com/nwcc

Teaching Students with Autism: Strategies for Success

This program explores the neurobiology behind autistic disorders and how autism affects student behavior, learning, and thinking. Most importantly, the course will provide you with creative, easy, low-budget strategies to help autistic kids succeed in the classroom and beyond. Topics will include how to counter social awkwardness, sensory sensitivities, meltdowns, problems with homework completion, language reciprocity issues, and violent fixations.

CEEDUC 724 **\$119**
www.ed2go.com/nwcc

Teaching Students with ADHD

Children with attention deficit hyperactivity disorder are always hearing things like "try harder," "pay attention" and "sit still." And they would love to do these things but often don't know how! In this course, you will discover practical ways to help children with ADHD manage their behavior and succeed in school. Importantly, you will be learning from the real experts: the children themselves. You will find out how Kristi controls her energy, how Wanda handles boredom and how Adam jump-starts his thought process. You will also hear from parents and teachers about the amazing benefits of relatively simple adaptations in space, structure, rules, and expectations.

CEEDUC 724 **\$119**
www.ed2go.com/nwcc

Working Successfully with Learning Disabled Students

In this course, an experienced special educator dissects the entire special education process. Topics range from working with individualized education programs (IEPs) to helping students struggling with reading comprehension, math skills, and writing. You will learn tips for modifying your classroom and tested methods for bringing out the best behavior in your students including fun games that promote learning. Whether you are already in the classroom, studying for the Praxis Special Education exam, or getting ready to work with students in a variety of settings, this course will prepare you to understand and empower your kids who have learning disabilities.

Complete Your Continuing Education Hours ONLINE

Our instructor-led online courses are informative, fun, convenient, and highly interactive. We focus on creating warm, supportive communities for our learners. New course sessions begin monthly. Visit our website to view start dates for the courses that interest you.

Here are some of popular continuing education courses:

Enhancing Language Development in Childhood

Enrich the lives of your children by helping them become proficient speakers and thinkers.

Teaching Students With Autism: Strategies for Success

Help students with high-functioning autism and Asperger's Syndrome unlock their potential.

Differentiated Instruction in the Classroom

Improve your ability to teach diverse learners with real-world examples from the classrooms.

Creating K-12 Learning Materials

Increase student performance and earn extra income by converting your ideas for instructional aids into reality.

Survival Kit for New Teachers

Veteran instructor shares the secrets for success in your first years of teaching.

Spanish in the Classroom

Learn the essential Spanish to communicate with your Spanish-speaking students and parents.

Learn from the comfort of home!

Northwest Community College

 Trades
Carpentry IP Refresher

This 60-hour course reviews the theoretical concepts and workplace applications that carpenters need to successfully prepare themselves for their ITA Red Seal exam.

Note: Students must purchase workbook "Understanding Construction Drawings for Housing & Small Business", available at bookstore. BC Building Code is recommended.

CETRAD 777 60 hrs \$1,422.75
TER TBA

Cook's Helper Program

This 13-week program prepares you to work in entry-level culinary and food service positions in camp or in town by teaching you how to thrive in a fast-paced kitchen environment. The course has three core learning modules: Student Success and Assessments; Cook's Helper Curriculum; and Health, Safety and Service Certificates.

CETRAD 778 13 weeks (456hrs) \$7,312.50
TER May 25-Aug 21 (Mo-Fr) 9-5pm

Heavy Equipment Operator IP Refresher Training

This 35-hour course reviews the theoretical concepts and workplace applications that heavy equipment operators need to successfully prepare themselves for their ITA Red Seal exam.

CETRAD 776 35 hrs \$749
TER Nov 17-21 (Mo-Fr) 8:30-4:30pm
TER Feb 16-20 (2015) (Mo-Fr) 8:30-4:30pm

NEW! Insulation Testing for Electricians and Maintenance Technicians

This course introduces the tradesperson or technician to the powerful system diagnostic functions of a modern Insulation Tester (Megohmmeter). The simplicity of operation, yet powerful functionality of the tool are demonstrated. Insulation tester functions are demonstrated and used by the participant.

CETRAD 791 4hrs \$134
TER Nov 17 (Mo) 6-10pm

NEW! Level 1 Programmable Smart Relays Programming and Integration Training

The first level introduces basic programming elements and builds on combinations of these elements. Logic combinations are covered and then introduced to real world control scenarios. Internal or "auxiliary" relays are used in motor control and sequence control circuits. The student will learn about control voltage and I/O requirements. Circuits will be connected by following schematic diagrams in each exercise. The importance of circuit logic behavior by viewing in monitoring mode is stressed in this level.

CETRAD 793 24hrs \$699
TER Nov 28-30 (Fr) 1-9:30pm
(Sa/Su) 8:30-5:30pm

NEW! Level 2 Programmable Smart Relays Programming and Integration Training

The Level 2 course explains programmable timing and counting functions. Timer on delay and time off delay are covered with real world examples. Timing charts are explained and used extensively. Programmable timing functions such as: timer on addition (hour meter); symmetrical flasher; clock function; and, on and off delay, are programmed to meet actual control scenarios. Count up and countdown functions are programmed. The importance of understanding circuit logic behavior by viewing in monitoring mode is stressed in this level.

CETRAD 794 18hrs \$599
TER Dec 5-7 (Fr) 6-8pm
(Sa/Su) 8:30-5:30pm

NEW! Variable Frequency Drives (VFD) Training for Electricians and Apprentices

This is a course for qualified electrical tradesperson or electrical apprentice tradespersons seeking to augment existing motor control skills, and gain knowledge and hands on experience working with VFDs. This course will also be valuable to the electrical tradesperson with VFD knowledge seeking to refresh their skills and gain additional knowledge in the area of VFD applications. Plant maintenance staff seeking to gain knowledge in upgrading legacy motor controls to VFD technology would also benefit from taking this course. There are prerequisites.

S-100 Fire Suppression

The Wildfire Act of BC states that anyone working on an industrial activity in the forest within one kilometer of a fire must report it and take preventive action. WorkSafeBC states that anyone taking such action must be certified. This course provides mandated certification with training that includes fire-line safety, fire behavior, and water delivery using portable pumps and gravity systems.

Note: The S-100 fire suppression designation is valid for five years but S-100 holders are required to take a S-10A refresher course annually to remain certified.

S-100A Fire Suppression Classroom – One Day

This recertification course is for individuals who have already completed the two-day S-100 Fire Suppression course within the last four years (since 2002).

Note: All participants must bring certificate of completion of the S-100 full course and photo identification to enroll.

WCB Occupational Health & Safety Regulations, Part 26, Section 26.19, Item 2, requires that workers required to fight forest fires must be retrained annually. In accordance with this regulation and in agreement with the BC Forestry Service, NWCC offers a review course based upon the safety aspects of sections 1, 2, 3, 4 and 5 of the S-100 course.

Participants must have one year or less wild-fire or brush experience with two-day course less than four years ago.

Traffic Control Flagging

This course is required for those monitoring, controlling and directing traffic in and around maintenance and construction areas. It provides in-depth coverage of the skills and information needed to become a qualified traffic control flag person. Successful completion of class participation and examination result in a British Columbia Construction Safety Alliance (BCCSA) certificate valid for three years. Students spend both scheduled days gaining practical experience with a qualified instructor. Successful participants must pass a written exam and practical evaluation. Graduates earn proof of completion training documentation, and become part of a provincial database that documents trainers and Traffic Control Persons.

Note: Students are required to wear Canadian Standards Association (CSA) approved steel-toed boots that must be at least 6 inches high. Participants are outside both days. Dress according to the weather.
